

Nature Conservancy's Young Professionals Group Fifth Annual Cocktail Benefit

March 18, 2010 – New York, NY

Members and guests of Manhattan's Young Professionals Group gathered Thursday night at the South Sea Soirée to benefit the Nature Conservancy. Guests mingled, sipped cocktails, and listened to live music at The Prince George Ballroom, while they bid on eco-friendly trips and other goodies with all proceeds going toward the mission of the Nature Conservancy.

This year's event was dedicated to saving the earth's coral reefs. The event successfully raised an impressive amount of support for the Conservancy's work in the Coral Triangle, nestled in the heart of the Asia Pacific. Inspired by the work of this dedicated organization, Loriet was delighted to participate in the evening festivities and to provide men's and women's apparel, and a complimentary hour of tennis, for attendees to enjoy.

SOUTH SEA SOIRÉE
A Benefit to Save Earth's Coral Reefs

The Nature Conservancy
Protecting nature. Preserving life.

Nestled in the heart of the Asia Pacific, the Coral Triangle is home to more than 75% of the world's known species of coral, an astounding diversity of marine mammals, over 3,000 species of fish and more than 150 million people. Upwards of 70% of the Earth's reefs could vanish in just 50 years. Join us to protect 12.4 million acres of the region's most biodiverse and sensitive marine habitat over the next decade.
